CAREERSAFE: THE NATIONAL YOUTH SAFETY INITIATIVE

Our mission at CareerSafe® is to deliver Safety Education for America's Future. Through our interactive, online training courses, we teach students how to reduce the risks associated with workplace and cyber safety hazards while providing useful information that will prepare these young men and women for a safe and prosperous future. By providing these individuals, particularly high school students, with fundamental safety knowledge, our program brings the significance of safety to the forefront. CareerSafe® is currently available in all fifty U.S. states and is in use by over 4,000 high schools nationwide.

NEED FOR CAREERSAFE®

Not a day goes by that we are not introduced to a new product or service that enhances our ability to communicate, work, play or learn via the internet. The speed of technical innovation is often breathtaking, leaving educators running to catch up with the “early adopters” who perpetually have the latest gadget. Unfortunately, as these technologies enter into the mainstream of our society and find their way into our schools, they may introduce a “dark side” that disrupts our ability keep our students and teachers safe. Cyberbullying, as defined by the National Crime Prevention Council, is the “process of using the internet, cell phones or other devices to send or post text or images intended to hurt or embarrass another person.” As educators, we need to be proactive by bringing awareness of the harmful effects of cyberbullying and other misuse of online technologies that can threaten the self-esteem, emotional well-being or social standing of students.

WHAT DO STUDENTS SAY?

STUDENTS ENROLLED

1.6 MILLION
